PROFESSIONAL SUMMARY

Junior Frontend Developer with hands-on experience building responsive and scalable web applications using React, Next.js.

Developed real-world projects involving REST API integration, dynamic UI rendering, and CMS-based content management (Sanity). Focused on clean architecture, performance optimization, and user-friendly interfaces.

Comfortable working independently or collaboratively in team environments. Open to remote or hybrid opportunities across Europe.

EXPERIENCE

Frontend Developer Intern – SUPEREGO
2024 – Denmark

- Developed reusable UI components using Next.js and TypeScript
- Integrated Sanity CMS for dynamic content management
- Worked with REST APIs to fetch and display data in UI
- Collaborated on real client projects in a professional environment
- Improved code structure and maintainability through refactoring
